

ADDITROL VC-2080

PRODUCT DESCRIPTION

Additrol VC-2080 is a single-package additive, precisely engineered and blended to meet your green sand molding requirements.

Additrol VC-2080 provides a consistent blended single-package addition to the muller with a minimum of handling, storage and inventory. 20% of high grade coal and 80% Volclay bentonite is individually formulated and manufactured to provide foundries with improved green sand additive control.

Additrol VC-2080 is blended with the highest quality raw material at Amcol International (Thailand) blending plants conveniently located to ensure adequate supply and on-time delivery.

ADDITROL VC-2080 FEATURES

- Highest quality ingredients
- Accurately blended for individual applications
- Simplified material handling and inventory
- Single addition at muller minimizes process variables
- Rayong Thailand conveniently located blending plants
