

ADDITROL CB MGT

PRODUCT DESCRIPTION

Additrol CB MGT is a single-package additive, precisely engineered and blended to meet your green sand molding requirements.

Additrol CB MGT provides a consistent blended single-package addition to the muller with a minimum of handling, storage and inventory. 10% of high grade coal with Flo-Carb and 90% Castbond bentonite is individually formulated and manufactured to provide foundries with improved green sand additive control.

Additrol CB MGT is blended with the highest quality raw material at Amcol International (Thailand) blending plants conveniently located to ensure adequate supply and on-time delivery.

ADDITROL CB MGT FEATURES

- Highest quality ingredients. Accurately blended for individual applications.
- Simplified material handling and inventory
- Single addition at muller minimizes process variables
- Improves Casting surface finish
- Improve sand flowability
- Increases mold permeability
- Reduces moisture demand in green sand and Reduces free water defects
- Improves shakeout and reduces sand carry-out

Specification

Color	Grey/Black
%Passing 200 Mesh	70% Min.
Moisture	12% Max.
MB	40 ml/0.5g Min.
VCM	3% Min.
LOI	8% Min.
